

UNDER COUNTER

CLASSIC PC-118

CLASSIC PC-118 is an undersink water filter designed to enhance your drinking experience. This innovative system features a chromed faucet with an undersink filter set, enabling you to enjoy filtered water instantly in your room. The 4-in-1 filter is compact and easy to install. Without any tools needed, you can change the filter with a quick twist. The faucet can rotate 360 degrees and efficiently drain large amounts of water.

CLASSIC PC-118
