PURETRON PC-888

Puretron PC-888 is a smart tap water dispenser designed to conserve tabletop space. Its aesthetic design adds a sleek and modern touch to your kitchen island. The sensor touch on the temperature display panel allows you to easily select the ideal temperature based on different needs (Hot 95 - 98°C, Cold 6 - 10°C, Ambient 25 - 40°C). Additionally, it is equipped with a power-saving mode to help conserve energy.
