

PC-300

Introducing PC-300, a bottled water dispenser with bottom loading. It offers hot, cold and room water, perfect for all your hydration needs. Made from robust ABS material, it features a premium SS304 stainless steel water tank, ensuring long-lasting performance. The welding tank design, paired with a food-grade silicone tube, guarantees safe and efficient water dispensing.

PC-300

Type	Bottom Loading
Dimension	W 31 x D 32 x H 96 cm
